

Practical-5: Demonstrate Function

1. Create a function to calculate simple interest ($SI = P \times R \times N / 100$). (A)
2. Create a function to find the feet to inch. (A)
3. Create a function to convert Celsius to Fahrenheit. (B)
4. Create a function to find factorial of a number. (C)
5. Write a function to find the sum of odd numbers between two range. (C)

Practical-6: Demonstrate Stored Procedure

1. Write a stored procedure to find the Factorial. (A)
2. Write a stored procedure to find maximum number out of two numbers. (A)
3. Write a stored procedure to find square of number. (B)
4. Write a stored procedure to find the sum of first 50 even numbers. (B)
5. Write a Stored Procedure that returns Total marks of 3 subjects using output parameter if marks of all 3 subject is >35 else return a proper message. (C)
